

AANE

Automated Activation Non-Electric

A simple, convenient way to activate
OXINE and KEEPER.

- Economical
- Eliminates need for manual mixing and dilution
- Automatically refills reservoir with active product as needed
- No electricity or wiring required
- Easy to install, only one water connection required
- Options available:

Tank Sizes: 15 gallon, 55 gallon

Accessories:

- Spigot
- Stand

Hands-Free Activation

The AANE is a cost-efficient system that eliminates the need for manual mixing of product and acid. The unit dilutes the activated concentrate and insures consistency. Requires no electricity or wiring. AANE is designed for users with continuous or batch requirements for activated product. AANE is reliable and has been proven in the field for small to large volumes of generated product. AANE increases efficiency by automatically refilling the solution reservoir with fresh active product as needed, eliminating the need for measuring and possibility of spills. AANE is easy to install. Only one water connection is required to provide activation of product to meet a wide range of applications.
